

Monday - 10 September 1951

1. Mr. Charles Parker of the Bureau of the Budget has coordinated within the Bureau our request of 8 September to forward letters to the Chairmen of the House and Senate Post Office & Civil Service Committees that CIA be exempted from the provisions of the proposed "little Wagner Act" for Federal employees.

2. Discussed with Mr. Lewis, of Press Intelligence, Inc., copyright problems involved in CIA reproduction of newspaper clippings. (See memo for the record this date).

3. Discussed with Mr. Winslow, of the Civil Service Commission, a proposed Civil Service Commission draft substitute for the "little Wagner Act", presently being considered on the Hill. I have requested him to exempt CIA from any such proposal, and he assures me that the Commission will do so and also exempt us from a proposed Executive Order should it be determined to issue one to head off this legislation.
